The MBS gateways are based on the same product platform and therefore offer an extraordinary degree of versatility and flexibility: new gateway purchases are rendered unnecessary because the devices’ adaptability means new functionalities can simply be activated. The integrated M-Bus-adapter make the usual external bus couplers unnecessary, reducing the amount of wiring required and enabling faster connection to serial or network-based communication protocols. The integrated M-Bus driver allows you to automatically scan the M-Bus counters - autoconfig for BACnet, PROFINET and Modbus.
Specifications

**Power consumption:** 5.5 watts

**Weight:** 400 Gramm

**Dimensions:** Height: 100mm, Width: 65 mm, Depth: 70mm (inclusive DIN-Top-hat rail adapter)

**Ambient temperature:** 0...45°C, 32...113°F

**Ambient humidity:** 20...80 percent relative humidity, non-condensing

**Assembly:** DIN top-hat rail TS35 in accordance with EN 60715

We offer the PROFINET + M-Bus Gateway with 25, 200, 500, 1,000 oder 2,500 data points. Please select your universal gateway!
